DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 70-76, drawn to a system for enlarging an area of a displayed moving television image, classified in Class 348 subclass 562.

Group II, claims 77-94, drawn to a system for capturing and storing displayed video images, classified in Class 386 subclass 46.

Group III, claims 95-125, drawn to a system for selecting television programs using stored viewing preferences, classified in Class 725 subclass 46.

Group IV, claims 126-139, drawn to a system for storing digitized audio samples while using a television, classified in Class 386 subclass 96.

Group V, claims 140-165, drawn to a system for the display of targeted commercials, classified in Class 725 subclass 35.

Group VI, claims 166-167, drawn to a system for recording a television broadcast utilizing a receiver with two tuners, classified in Class 725 subclass 153.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- Group I contains the special technical feature of enlarging an area of a displayed image, which is not found in Groups II-VI.
- Group II contains the special technical feature of selectively capturing and copying displayed images for storage, which is not found in Groups I and III-VI.
- Group III contains the special technical feature of selecting programs using viewing preferences, which is not found in Groups I, II, and IV-VI.
- Group IV contains the special technical feature of storing audio notes, which is not found in Groups I-III, V, and VI.

- Group V contains the special technical feature of displaying targeted commercials, which is not found in Groups I-IV and VI.
- Group VI contains the special technical feature of recording a first digitally broadcast program on an analog device while viewing another digital broadcast, which is not found in Groups I-V.

3. A telephone call was made to Mike Hierl on September 22, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
